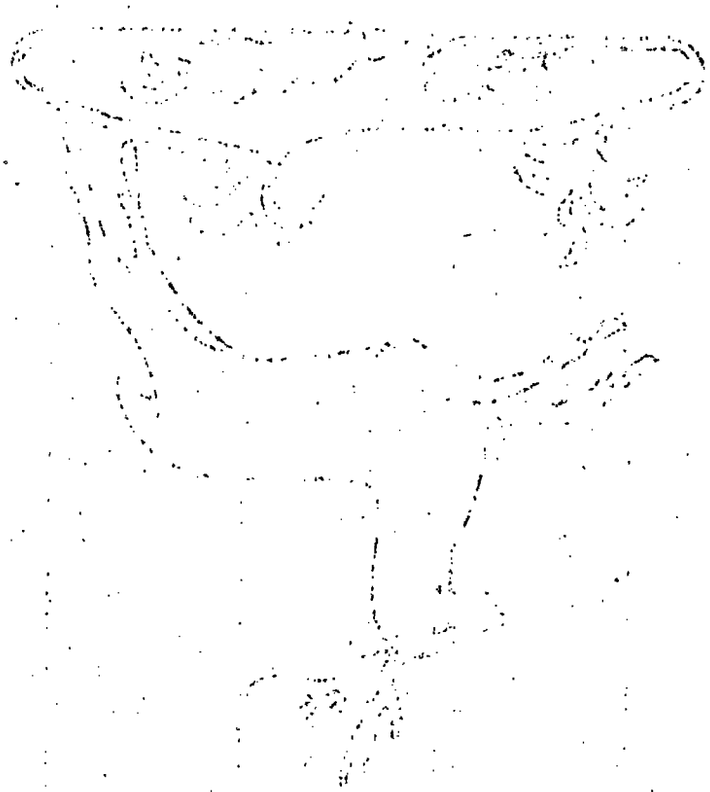
In memoriam

B/Ms. Estes.



To the President of the United States
The Senate
and House of Representatives

The Constitutional
Convention of the State of
California duly assembled
and now in session by
authority of law by the
unanimous vote of said
Convention the names
of whose members are
by themselves signed to
this memorial respectfully
represent that for many
years last Large numbers
of Chinese have come into
our State. That the numbers

of adult male mongolians
Now Ten exceeds one hundred
and twenty thousand.
That they are an inferior
race of men incapable of
assimilation with the Am-
-erican people, or of becoming
citizens of the American
Nation, That their laws
and Customs which they
~~bring~~ bring with them,
and ever retain differ
from those of any civilized
people. That they have no
families ~~that~~ & that they
are the lowest element

of a nation where work is the rule, and Plenty the exception, and where the Chief aim is to obtain food. That the Presence in such large numbers of so many servile laborers to clearing every avenue to white free labor and rendering it impossible for white laborers who Love Freedom to live in this State. That Civilization is more expensive than

barbarism and hence engaged which men cannot compete with in Mongolian labor.

That the Chinese are semi nomadic living in the open air, in tents and out houses (except in large cities) and they have few of the expenses to which white men are subject. That in most instances the Chinese come here under contract with some of their own people who control their labor while here

That very many of the males and criminal ~~class~~ and at least nine tenths of their women here are prostitute. That every ship coming into our ports from China is freighted with this class of laborers. That its further import of this plague is viewed with profound alarm by every class of our people and if allowed to continue will cast a blight upon

ne of the fairest portions of
our country. That the
benefits, the peace and the
general prosperity of our
people depends in a great
degree, upon the early
restriction of this class
of immigration.

We therefore most ear-
nestly pray that the present
treaty with China be
so modified as to prohibit
the further immigration
of this class of Chinese
laborers, or, that such
laws be passed as will re-
strict such immigration
