

# PETITION.

To the Honorable Gentlemen, the Members of the Constitutional Convention now assembled:

We, the residents and taxpayers of the State of California, fully realizing the importance of this session and the arduous duties and responsibilities that necessarily rest upon each individual member of said body in the exercise of the powers vested in him; and realizing that many grave questions will present themselves to any body of men who shall assemble to consider such great facts as must necessarily arise in the framing of a Constitution to govern and direct the people of any Country, State or District, and especially our own loved and endeared State of California, where Nature has been so lavish, and Providence so wise.

And yet, with all our boasted advantages of climate, productions, mineral wealth, scenery, etc., we have observed with sorrow and pain the rapid and constant increase of crime and the alarming tendency toward idleness, with all its attendant elements of misery, wretchedness and want, and in vain to we try to blind ourselves to the frequent necessity of enlarging our State Prisons and lunatic asylums, for even now they are crowded to their utmost capacity. And believing that no greater question can present itself to your Honorable Body than the education and protection of society, and while we cheerfully submit to and pay the taxes levied upon us for educational and other purposes, we believe that it is unwise and inexpedient to spend millions of dollars for education and then admit of the manufacture and traffic of that which destroys the mental faculties and poisons and destroys the mind... While we have explicit confidence in the judgment and integrity of those we have chosen to represent us, and believing that it will be their highest aim to carry out the will of the people they represent when such will is made known, therefore we would petition your Honorable Body:

That you will insert in the Constitution a clause, granting to the people the right to say whether they will allow the sale of intoxicating liquors in their midst or not, (better known as Local Option), or a Civil Damage Law, or both.

And your petitioners will ever pray.
